

# Do Texas public charter schools get more money than ISD schools?

IT'S NOT COMPLICATED. HERE ARE THE FACTS.

Public charter schools receive less money.

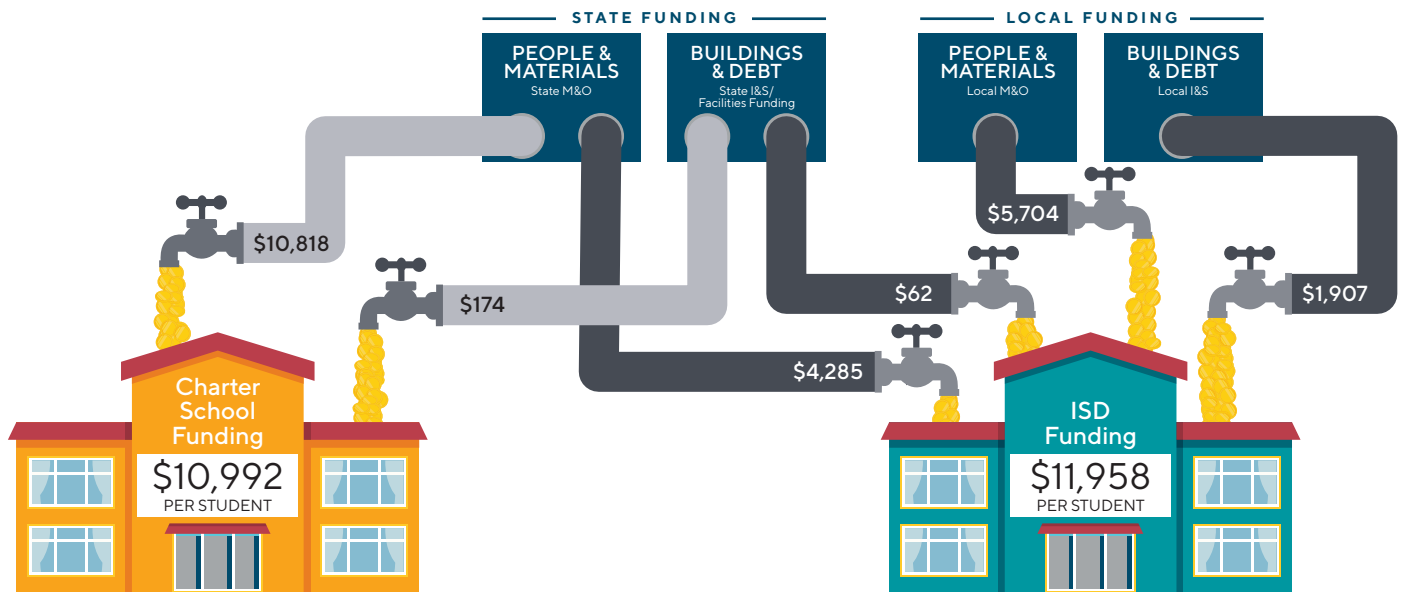

**\$10,992**  
per charter  
school student

**\$11,958**  
per ISD student

Public charter schools have 2 funding sources. ISDs have 4.

But... public charter schools serve more disadvantaged student populations.
